CONTINENTAL VISION

DCH Construction Investment Joint Stock Company (here and after referred to as DCH) was established and developed by a team of dynamic and experienced managers and engineers. We have more than 13 years of experience in the field of construction, installation, supply and installation of civil, medical, telecommunications, digital infrastructure, IoT

HUMAN RESOURCES

DCH continuously invests in improving the quality of human resources through short-term and long-term, domestic and foreign training forms for its officers and employees; cooperate with domestic and international universities and training centers to find young talents to serve the long-term development needs of the company.

MISSION

We are always aware of the importance of after-sales service, so right from its inception, the company consolidated and built a professional, dedicated customer care department, solving problems arising quickly within 24 hours after receiving inquiries from customers

We are always looking for and expanding products, cooperating with prestigious partners in the world as well as in the country. Grasping and transferring technology, setting the ambition to be able to initially produce quality products

control.

GOALS & STRATEGIES

To reach further, DCH recognizes that Vietnam's economy is developing rapidly, increasingly integrating into the dynamic economy of the world. More and more technology companies are investing in the Vietnamese market. This is a great opportunity to develop a multi-platform technology services business.

GOALS & STRATEGIES

DCH cooperates with partners in the field of telecommunications who already have customers, technical infrastructure, distribution systems to invest in expanding technology capacity, expanding the scope of customers to dominate the market. Besides the areas that have affirmed the brand

DCH will affirm its position in the telecommunications – information technology market in Vietnam, on that basis reaching out to Southeast Asia and the continent

GOALS & STRATEGIES

SAIGON POST AND TELECOMMUNICATIONS CORPORATION

"Kết nối tương lai ngay hôm nay"

Head office: 10 Co Giang Street, District 1, HoChiMinh City, Vietnam

GOALS & STRATEGIES

DCH has selected 2 major service providers in Vietnam.

- DCH signed a comprehensive cooperation contract with **VTVCab** on investment in upgrading technical infrastructure. DCH accompanies **VTVCab** to develop digital content services. DCH is assigned by **VTVCab** to manage and operate the entire system of providing telecommunications and television services.

- DCH has signed a comprehensive cooperation contract with **SPT** and was transferred by **SPT** the right to upgrade, manage and operate the existing core system and optical network owned by **SPT**.

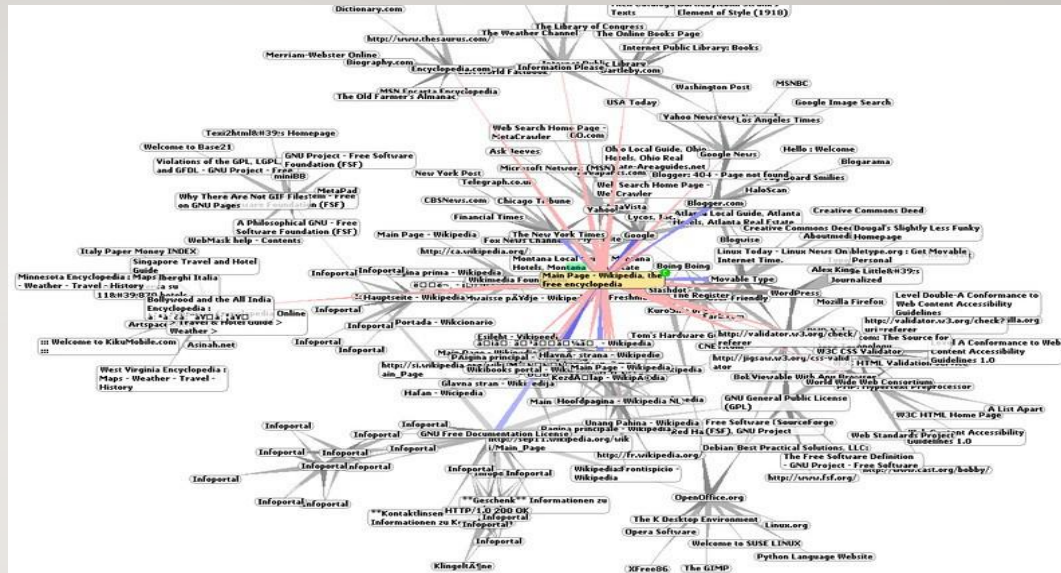

INVESTMENT AND DEVELOPMENT COOPERATION

By cooperating with VTVCab, SPT, DCH to provide resources and manage customer development in key economic development areas of Vietnam such as Ho Chi Minh City, Hanoi City, coastal provinces developing tourism such as Khanh Hoa, Quang Ninh, Ba Ria Vung Tau, industrial development provinces such as Binh Duong, Dong Nai ...

HỢP TÁC ĐẦU TƯ – PHÁT TRIỂN

VTVcab currently has nearly 2 million customers using television services and nearly 200 thousand customers using broadband internet services

SPT currently has nearly 70,000 customers using broadband internet services

INVESTMENT COOPERATION

With such a number of potential customers, DCH needs investment resources expected to be 10,000 billion VND for development.

INVESTMENT AND DEVELOPMENT COOPERATION

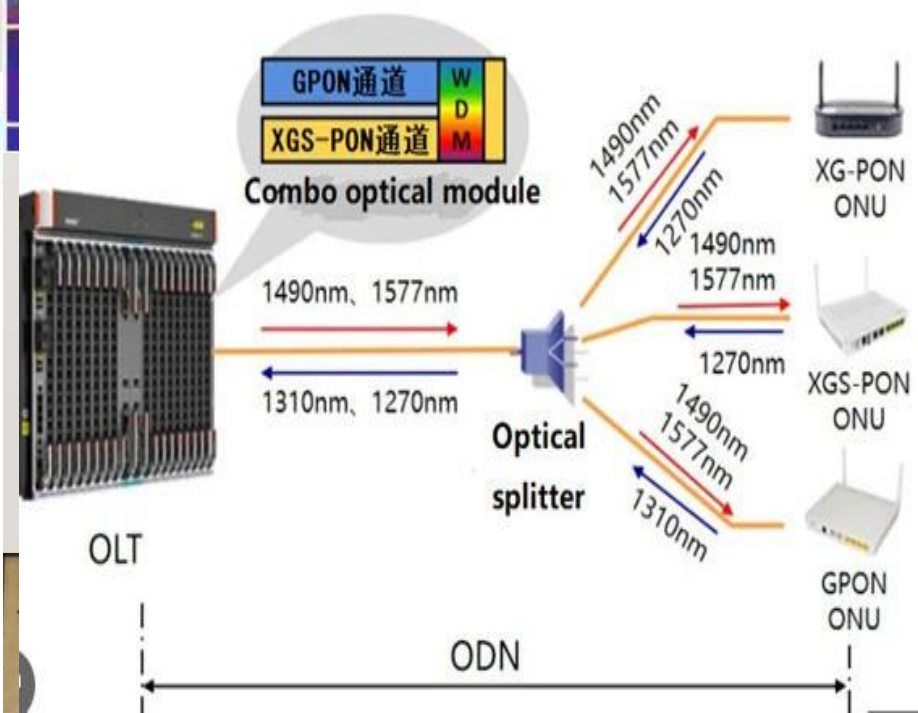

In which, investment in technical infrastructure of telecommunications systems is 7,000 billion VND;
Investment in server systems for service provision increased by 3,000 billion VND

INVESTMENT AND DEVELOPMENT COOPERATION

Invest in core transmission system to provide international bandwidth, invest in XGPON system with the entire VTVcab infrastructure with the current number of customers reaching 2 million customers and in the next five years increase to 5 million customers

When the system is complete, it is time to deploy incremental DVs - IoT (Internet of Things) means the Internet of Things. A system of related computing devices, mechanical and digital machines or humans and the ability to transmit data over a network without requiring human-computer interaction.

IoT helps people live and work smarter, can control their time in the best way. IoT gives businesses a glimpse into how long their systems actually work, providing insights into everything from machine performance to supply chain and logistics

BOOM – DEVELOPMENT

Development of added services,
Smart Home, AI Camera, Smart City.

BOOM – DEVELOPMENT

With a team of professional staff,
working hard will bring high
efficiency in work and always
towards strong success

THANK YOU

DCH

THANKS!
